

Why you need to come to our greenRclean™ Workshop and Training

Experiencing an increased demand from your clients for more sustainable cleaning? Do you and your clients fully understand the implications of introducing a greenRclean™ solution? How do you win more tenders and contracts that require green cleaning?

The greenRclean™ WORKSHOP

By attending this workshop, you will:

- Develop an awareness of the importance and relevance of green cleaning in Australia
- Know what the advantages of green cleaning are
- Know what the disadvantages of green cleaning are
- Know what makes a product or chemical “green”
- Know how to introduce green cleaning to one of your sites
- Get an insight into green cleaning costs
- Find a “turn key” green cleaning solution
- Find out how to make green cleaning part of your strategic plan
- Develop a green cleaning training plan for all staff
- Find out what government funding opportunities there are
- Increase your knowledge by participating in the actual greenRclean™ training course.

Hosted by Bridget Gardner (our industry expert), the workshop is a unique opportunity to answer all your questions on sustainable cleaning.

We are currently accepting expressions of interest to attend a greenRclean™ workshop to be held on **26 November 2010**.

- I would prefer to attend a morning session (09:00 – 13:00)
- I would prefer to attend an afternoon session (14:00 – 18:00)
- I would prefer to attend an evening session (16:00 – 20:00)
